

Prepress Services

Concord Litho is a certified G7 Master and has 100% computer to plate PDF workflow, running off a Kodak Prinergy system. We operate in both PC and Mac environments and accept a variety of media formats, including CD and DVD. We provide secure, password-protected folders on our FTP site, where you may safely upload and download your files and PDF soft proofs. Our output capabilities include 2 Epson Stylus Pro 9880 proofers (44" roll), 2 HP inkjet plotters (42" and 36" rolls), and our dot proofer is a Kodak Approval XP4 color proofer. All our proofers can handle a variety of substrates.

- G7 Master Printer
- 100% CTP, PDF Workflow
- Password-protected FTP Folders
- Epson & Kodak Approval Proofs

G7 Masters are printers, prepress service providers and advertising agencies who have been trained to use the G7 Proof-to-Print Process and can produce proofs and/or can print to the G7 standard. The G7 Master qualification mark means the company uses the most modern technology, techniques, proofing and press controls, and standards required to produce a close visual match from proof to print. For more information, visit www.idealliance.org online.

Heat-Set Web Printing

Concord Litho is a fit for high-volume heat-set web projects, from self-mailers and FSIs to magazine inserts and brochures. Leverage our inline finishing to save time, money and produce engaging formats like stepped booklets, Peel-n-Reveal, or die-cut shapes.

- 5 web presses, 2 double webs
- Inline finishing & ink-jet imaging
- Up to 10 colors
- 17 3/4" and 23 1/2" cut offs

We have 5 heat-set web presses – 4 Harris M-110s with up to 10 colors perfecting (26.5" max roll size and a max print area of 17 1/4" x 26 1/4"), 2 of which are double webs; and a Harris M-1000 (38" max roll size and max print area of 23" x 37 1/2"), single web with up to 6 colors perfecting. A pioneer in web printing since the 1970s, Concord Litho's inline finishing capabilities include:
